Description

PRODUCT DESCRIPTION

UL-7023 – The Decrystallizing Modules (Red MAX Version)

5X Power – 50% Larger Format

The UL-7023 Red MAX modules represent the most powerful decrystallizing version in the Orgo-Life® range.

This is no longer about softness — this is about raw vibrational force (PEMF field),

calibrated to break through the most stubborn energetic blockages, the ones that have been stuck for weeks, months, or even years.

MAIN FEATURES

- 50% larger than standard modules
 - Heavier weight for stronger vibrational anchoring
 - 5X Quantum Push technology, calibrated for deep penetration
 - Designed to work inside thick layers of vibrational stagnation
 - Always 100% non-electronic, battery-free, current-free, compliant with Law 31

These red modules do exactly what their name promises:
They loosen. They decrystallize. They dissolve what is energetically blocked.

The complete UL-7023 Red MAX kit includes:

- 6 individually calibrated Red MAX modules
 - One FR/EN chart (positioning, zones, common applications)
 - A full velcro kit covering:
 - both arms
 - shoulders
 - elbows
 - wrists
 - and several other zones depending on needs

With this configuration, you can finally work energetically on tendinitis, frozen shoulders, blocked elbows, overworked wrists, and all zones that accumulate dense, old vibrational stagnation.

RESULT?

When everything is set together — the 6 modules + velcro kit + the 5X Quantum Push adjustment —
You're in business.
The body responds, releases, realigns.
It's powerful, fast, and goes much further than regular modules.

UL-7023 Red MAX – Professional Wellness Use

Advanced energetic harmonization for professional settings

Orgo-Life® vibrational technologies are designed for professionals who want more than simple relaxation.

With the UL-7023 Red MAX, we enter an intermediate category between deep vibrational therapy and targeted energetic work tools. These oversized modules — 50% bigger, heavier, and equipped with 5X Quantum Push — are designed to directly attack the most stubborn energetic blockages, those stagnating for years in meridians, joints, or dense regions of the body.

Whether you are a therapist, massage therapist, energy worker, Reiki practitioner, holistic coach, or animal practitioner, these modules become a major transformation tool in your protocols. They amplify depth, increase release, support subtle realignments, and create a coherent, stable, and powerfully reharmonized energetic session space.

Passive devices such as discs, spirals, and domes create a constant harmonization field, while the UL-7023 Red MAX serve as the **primary tool** to decrystallize stuck energy, restore vibrational fluidity, and restart the natural Chi flow, exactly like Chinese meridian energy work — but with the Orgo-Life® vibrational signature.

These modules are non-electronic, battery-free, without artificial emissions: only natural vibration, bio-resonance, and PEMF electromagnetic field harmonized by the internal quantum structure.

This field is gentle, natural, and often able to unblock meridians in minutes even when stagnation has lasted for years.

PLACEMENT

With the velcro system included, you can place them anywhere on the body:

- legs
- arms
- navel
- back
- shoulders
- hips

- thorax (with an important caution)
- overloaded or tendinous joints

ESSENTIAL CAUTION

Never place UL-7023 modules near the heart if the person has a pacemaker.
This rule is strict in professional use.

Included with the red modules:

- FR-EN anatomical chart
 - Full velcro kit (arms, elbows, wrists, shoulders, legs, etc.)
 - 6 Red MAX modules, calibrated one by one for optimal vibrational coherence

With this assembly — 6 modules + velcros + Quantum Push 5X + natural PEMF — this is no longer a soft session:

This is business.

Raw efficiency.

You can work on elbows, frozen shoulders, inflamed elbows, overworked wrists, dense meridians, and all areas needing a "**deep energetic reset**".

MAIN BENEFITS
